## DIAMOND Plastics <br> C O R P O R A T I O N

PRODUCTCATALOG
Proudly Serving The Construction And Engineering Trades For Over Forty Years

## QUALITY PRODUCTS, PEOPLE \& LOCATIONS

Diamond Plastics Corporation is one of today's leading PVC pipe producers in North America and one of the largest producers in the world. Established in 1982 as a small agricultural irrigation specialist with facilities in Texas and Nebraska, Diamond Plastics has grown to include a nationwide network of professional manufacturing facilities providing pipe solutions for water, sewer and irrigation applications.

We offer the industry's broadest range of PVC pipe sizes, with diameters from 4 inches to 60 inches. No other company makes a higher quality, longer lasting PVC pipe than Diamond Plastics. Our PVC pipe offers an unparalleled combination of toughness, resiliency, corrosion resistance, joint integrity, versatility and ease of handling \& installation. It's ideal for the vast majority of underground water and sewer applications.

## WHY DO BUSINESS WITH DIAMOND PLASTICS CORPORATION (DPC)?

There are many reasons, ranging from the flexibility and durability of our PVC pipe to the skil and dedication of the people who make it. Our business philosophy is to produce products of the highest quality and value for the customer, using the latest technology and procedures to maximize efficiency. You can count on Diamond Plastics for long lasting pipe solutions. Our PVC pipe is available in sizes and wall thicknesses designed for your application.

## EXCEPTIONAL SERVICE

The entire Diamond Plastics' team is committed to providing exceptional customer service today, tomorrow and well into the future. We combine our professional sales representative force in agricultural products with a nationwide network of professional manufacturers representatives serving the municipal, engineering and distribution industry. Working together, we deliver the industry's highest level of job site and customer inventory service.

We welcome you to our website, www.dpcpipe.com, and invite you to contact your local Diamond Plastics' sales representative to see our quality difference for yourself. Any access to information contained in this brochure is deemed to be an acknowledgement, and shall constitute an agreement by the User to be bound by each of the terms and conditions set forth in the Legal Notice and Disclaimer. Please be certain to review each of those terms and conditions

## C900 PVC PRESSURE PIPE

## 4"-12" SPECIFICATION DATA

Diamond C900 PVC Pipe (4" through 12") is made of 12454 compound per ASTM D1784, and is manufactured in accordance with the dimensional chemical, and physical requirements of AWWA C900.

Diamond C900 PVC Pipe bears the mark of NSF International (NSF) indicating NSF61 certification, NSFfs (UL1285) indicating certification to the UL 1285 standard, and NSFfs(FM1612) indicating certification to the FM 1612 standard. Some factory locations produce C900 bearing the mark of the Canadian Standards Association (CSA) and NSF-14..

Diamond C900 PVC Pipe utilizes a gasket, meeting the requirements of ASTM F477 and D3139, to seal the integral bell socket to the spigot of the next joint. Each male end is beveled to facilitate joint assembly, and the spigot is reference marked to ensure proper insertion depth. Diamond furnished lubricant is to be used in the joining process. Specialty gaskets may be available upon request.
PHYSICAL PROPERTIES OF PVC 12454:

| Property | ASTM Test | Minimum |
| :---: | :---: | :---: |
| Specific Gravity | D792 | 1.40 |
| Tensile Strength, psi | D638 | 7,000 |
| Tensile Modulus, psi | D638 | 400,000 |
| IZOD Impact Strength | D256 | $.65 \mathrm{ft} ., \mathrm{lb} . / \mathrm{in}$. |

SHORT FORM Specification for Diamond C900 PVC Water Pipe. Diamond C900 PVC Water Pipe shall be made of compounds conforming to ASTM D1784 with a cell classification of 12454. Diamond C900 shall meet all the dimensional, chemical, and physical requirements as outlined in AWWA C900 and will be supplied in 20 and 22 foot laying lengths. Joints shall meet the requirements of ASTM D3139 and shall be formed using Rieber Technology. Gaskets shall meet the requirements of ASTM F477. Potable water pipe shall be manufactured from National Sanitation Foundation (NSF) approved compounds.

## EXTREME TESTING CONDITIONS

C900 PVC pressure pipe, available in pressure ratings for a wide range of water transfer applications (Available in sizes from 4" through 12")

## TRANS-21

## AWWA C900 SPECIFICATION DATA

Diamond Trans-21 C900 14"-60" PVC Pipe is made of PVC compound with a cell classification 12454 as defined in ASTM D1784 and is suitable for potable water, sewer force main, or reclaimed water transmission. Diamond Trans-21 C900 meets the requirements of American Water Works Association (AWWA) Product Standard C900.
Diamond Trans-21 C900 is manufactured in $14^{\prime \prime}, 16^{\prime \prime}, 18^{\prime \prime}, 20^{\prime \prime}, 24^{\prime \prime}, 30^{\prime \prime}, 36^{\prime \prime}, 42^{\prime \prime}, 48^{\prime \prime}, 54^{\prime \prime}$ and $60^{\prime \prime}$ sizes with an integral gasket bell and spigot "push-on"joint conforming to the requirements of ASTM D3139. Rieber Sealing System Technology is utilized in forming the gasket bell sockets of Diamond C900 PVC Pipe around the steel reinforced elastomeric seal meeting the requirements of ASTM F477.

Diamond Trans-21 C900 is manufactured in accordance with the physical, dimensional and performance requirements of AWWA C900, and is certified to the UL 1285 standard by NSF International (NSFFs(UL 1285)). Each piece is hydrostatically proof tested to twice its pressure rating before being shipped.

UL 1285
DPCPIPE.COM | 1-800-PVC-PIPE

## LOK-21 ${ }^{\text {TM }}$ FEATURES \& BENEFITS

## INTRODUCTION

Diamond Lok-21 restrained joint PVC pressure pipe is manufactured in accordance with AWWA C900 Polyvinyl Chloride (PVC) Pressure Pipe and Fabricated Fittings in sizes from $4^{\prime \prime}$ thru $24^{\prime \prime}$ CIOD ( 100 mm to 600 mm ). Most sizes are available in DR14 (PC 305), DR18 (PC 235), DR21 (PC 200) ,and DR25 (PC 165). Please check with your local Diamond Sales Representative for availability. Cast Iron Outside Diameter (CIOD) sizing insures the availability of fittings, valves and other appurtenances.

Diamond Lok-21 pipe is manufactured from compounds meeting the requirements of ASTM D1784 for a cell classification of 12454 and having a hydrostatic design basis (HDB) of 4000 psi. The pipe compound and gaskets also meet the requirements of NSF Standard 61 for potable drinking water.

Diamond Lok-21®'s restraint system provides uniform circumferential contact thereby eliminating any concerns over point loading. Because it is a simple push together system, it dramatically reduces installation time while reducing complexity which exists for fused or bolted systems.

Diamond Lok-21® restrained joint PVC pipe is well suited for installation through bore casings and most applications which require joint restraint. Because it is PVC, you know you are getting superior long-term performance.

## PIPE INTEGRITY

Each piece of Diamond Lok-21 is proof tested to twice its pressure rating. It has a short term safety factor greater than 3 against burst pressure and a long-term safety factory of 2 on its pressure rating. All Diamond Lok-21® products utilize the Rieber sealing system technology which provides tremendous joint integrity under severe construction conditions.

## PUSH TOGETHER RESTRAINT

Diamond Lok-21® restrained joint PVC pipe is well suited for installation through bore casings and most applications which require joint restraint. Because it is PVC, you know you are getting superior long-term performance.

## FAST, SIMPLE AND RELIABLE

Installation costs are dramatically reduced with Diamond Lok 21®. It is nearly as fast as standard PVC pipe installation. It is as simple as clean, IUbricate, align and insert and as reliable as PVC pipe. No special tools, no special machines, no special parts.

## PVC

Diamond Lok-21® is made of PVC, a non-conductor of electricity, therefore immune to electrochemical reactions which cause corrosion. PVC is resistant to a wide range of chemicals which cause corrosion in non-PVC products. The restraint casing and lock ring are coated to resist corrosion and located on the non flow side of the gasket. No nuts and bolts to worry about. Because PVC does not corrode, "Red Water" is not possible in a Diamond Lok-21® system.

## RIEBER GASKETED SEALING SYSTEM

Diamond Lok-21 ${ }^{\oplus}$ has deep insertion push together gasketed joints utilizing Rieber sealing system technology. This has virtually eliminated the leaks from rolled or fish-mouthed gaskets.

SMOOTH INTERIOR/GREATER RELATIVE FLOW CAPACITY
Diamond Lok-21® has a very smooth interior which provides a Hazen-Williams C Factor of 150. This ensures superior hydraulics over the long term reducing pumping costs and requiring much less cleaning. The smooth interior reduces unwanted by-product buildup and therefore does a much better job of maintaining initial water quality. Because PVC has much higher tensile HDB strength than HDPE, it has a larger I.D. for similarly pressure rated products and hence greater flow capacity.
SHORT FORM SPECIFICATION FOR WATER TRANSMISSION \& SEWER FORCE MAIN PIPE

Self-Restrained potable water transmission and sewer force main pipe shall be Diamond Lok-21 PVC pipe. It shall be manufactured with compounds meeting a 12454 designation according to ASTM D1784 and shall have Rieber style joints meeting the requirements of ASTM D3139 with gaskets meeting the requirements of ASTM F477. Pipe for use in potable water systems shall also bear the NSF 61 mark or equivalent.

## GASKET ILLUSTRATION

## GASKET DIAGRAM

## How IT WORKS?

How it works? "Rieber Sealing System Technology" is utilized in forming the gasket bell sockets of Diamond C900 PVC Pipe around the steel reinforced elastomeric seal meeting the requirements of ASTM F477.

(Sealing effect established during the belling process.)

## LOK-21 ${ }^{\circledR}$

## AWWA SPECIFICATION DATA

Diamond Lok-21 self- restrained joint C900 PVC pipe $4^{\prime \prime}$ thru $24^{\prime \prime}$ ( 100 mm thru 600 mm ) is made of 12454 compound per ASTM D1784, in accordance with the dimensional, chemical, and physical requirements of the current AWWA C900 Poly Vinyl Chloride (PVC) Pressure Pipe and Fabricated Fittings standard.

Diamond Lok-21® restraint joint C900 products bear the mark of NSF, International.
Diamond Lok $-21^{\circledR}$ restraint joint C900 products utilize the Bulldog Restraint System ${ }^{\circledR}$ with a Rieber gasket per ASTM F477 to seal the integral bell socket to the spigot of the next joint (which conforms to the requirements of ASTM D3139). Each male end is beveled to facilitate joint assembly and the spigot is reference marked to ensure proper insertion depth. Diamond furnished lubricant is to be used in the joining process.

## LOK-21 ${ }^{\text {TM }}$ IPS SPECIFICATION DATA

LOK-21 ${ }^{\circledR}$

## SPEIIFCATION DATA

Diamond LOK-21® restrained joint IPS (ASTM D2241) SDR 21 and 26, PVC pipe ( $4^{\prime \prime}, 6^{\prime \prime}$ and $8^{\prime \prime}$ ) is made of 12454 compound per ASTM D1784, in accordance with the dimensional, chemical, and physical requirements of ASTM D2241 for IPS sizes.

Diamond LOK-21® restraint joint IPS pipe bears the mark of NSF-14.
Diamond LOK-21® restraint joint IPS utilizes the Bulldog Restraint System with a Rieber gasket per ASTM F477 to seal the integral bell socket to the spigot of the next joint (which conforms to the requirements of ASTM D3139). Each male end is beveled to facilitate joint assembly, and the spigot is reference marked to ensure proper insertion depth.

Diamond furnished lubricant is to be used in the joining process.

## ASTM D2241 IPS SPECIFICATION DATA

Diamond IPS pressure-rated PVC pipe is made of compounds conforming to material requirements of ASTM D2241 in accordance with ASTM D1784. Pipe sizes (2" through 12") are made with an integral bell to utilize the Rieber gasket system for sealing, and meeting specifications defined in ASTM F477 which conforms to the requirements of ASTM D3139.

Diamond IPS pressure-rated PVC pipe meets all the dimensional, chemical, and physical requirements as outlined in ASTM D2241. Potable water pipe carries the mark of NSF, International in accordance with Standard 61. Some factory locations produce IPS pressure pipe bearing the mark of NSF-14.

Each male end shall be beveled to facilitate joining and reference marked to insure proper insertion depth. Diamond furnished lubricant is to be used in the joining process.

## D2241

SHORT FORM Specification for Diamond PVC Water Pipe. Diamond PVC Water Pipe shall be made of compounds conforming to ASTM D1784 with a cell classification of 12454. Diamond PVC Water Pipe must meet all the conforming to Amensional, chemical, and physical requirements as outlined in ASTM D2241 and will be supplied in 20 and 22 foot laying lengths. Joints shall be formed using Rieber Technology. Potable water pipe shall be manufactured from NSF listed ingredients.

## SANI-21 ${ }^{\text {TM }}$ PVC SEWER PIPE SPECIFICATION DATA

## D3034 \& F679 SEWER SPECIFICATION DATA

Diamond gravity sewer pipe 4 inches through 60 inches shall be made of compounds conforming to material requirements of ASTM D3034 and ASTM F679 in accordance with ASTM D1784. Diamond PVC Sewer Pipe meets all the dimensional, chemical, and physical requirements as outlined in ASTM D3034 and ASTM F679.

A listing to CSA B182.2 is available for most of these sizes. A complete listing by manufacturing plant is available upon request.

Pipe sizes 4 inches through 60 inches are made with an integral bell "water-tight" joint that meets the requirements of ASTM D3212 and that utilizes a Rieber gasket system for sealing that meets the requirements of ASTM F477.

RIEBER JOINT ILLUSTRATION

Each male end shall be beveled to facilitate joining and reference marked for proper insertion depth. Diamond furnished lubricant is to be used in the joining process.

## PIP ${ }^{\text {TM }}$ LOW HEAD SPECIFICATION DATA \& LOADING CHART

## PIP SPECIFICATION DATA

Diamond Low-Head PIP is made of compounds conforming to material requirements of SCS 430. Pipe sizes ( $6^{\prime \prime}$ through $15^{\prime \prime}$ ) 50 psi are made with an integral bell to utilize a gasket for sealing, meeting requirements as defined in ASTM F477 and ASTM D3139.

Diamond Low-Head PIP PVC pipe meets all the requirements as outlined in SCS 430.
Each male end shall be beveled, swagged or deburred to facilitate joining and gasketed joints shall be marked to reference proper insertion depth. Only Diamond furnished lubricant is to be used in the joining process.

It is recommended that Low-Head PIP PVC piping systems be designed and installed in accordance with SCS 430.

PRESSURE-RATED PIP SPECIFICATION DATA

## PRESSURE-RATED PIP PIPE

Diamond PIP pressure-rated pipe ( $6^{\prime \prime}$ through $27^{\prime \prime}$ ) is made of compounds conforming to material requirements of SCS 430 . The pipe sizes ( $6^{\prime \prime}$ through $27^{\prime \prime}$ ) are made with an integral bell to utilize a gasket for sealing, meeting requirements as defined in ASTM F477 and ASTM 3139.

Diamond PIP pressure-rated PVC pipe meets all the dimensional, chemical and physical requirements as outlined in SCS 430. Diamond PIP pressure-rated pipe ( $15^{\prime \prime}$ through $27^{\prime \prime}$ ) meets all the dimensional, chemical and physical requirements as defined in ASTM DD2241 ANNEX.

Each male end shall be beveled, swagged or deburred to facilitate joining and shall be marked to reference proper insertion depth. Only Diamond furnished lubricant is to be used in the joining process.

RIEBER JOINT ILLUSTRATION

It is recommended that PIP Pressure-Rated PVC Piping systems be designed and installed in accordance with SCS 430.

## LIMITED WARRANTY AND LIABILITY

Diamond Plastics Corporation, 1212 Johnstown Road, P. O. Box 1608, Grand Island, NE 68802, does hereby warrant, subject to the limitations hereinafter stated, its PVC Pipe to be free from defects in material and workmanship under normal use and service for a period of twelve (12) months from the date of invoice. This limited warranty extends only to the original purchaser for use, and will be void if the product is used under conditions other than those for which it was designed or if it is not used in compliance with all instructions contained in any operating manual or specification sheets provided for such product.

Alteration or modification of the PVC Pipe in any manner, (other than as may be specifically authorized by Diamond Plastics Corporation or permitted in accordance with the installation guide provided by Diamond Plastics Corporation for such product), will void this limited warranty.

The sole obligation of Diamond Plastics Corporation, under this limited warranty, and the exclusive remedy of the purchaser under this limited warranty is the repair or replacement, without charge, F.O.B. shipping point, of such products or parts of products only, specifically excluding any labor or installation thereof, which Diamond Plastics Corporation, after inspection, determines to be defective.

Purchaser must notify Diamond Plastics Corporation, in writing at its address shown above within ten (10) days from the date of discovery of any claimed defect specifically stating the details of such defect, and, if requested by Diamond Plastics Corporation, return the defective product, freight prepaid, to Diamond Plastics Corporation, F.O.B. shipping point as shown on Diamond Plastics Corporation's order acknowledgment.
Diamond Plastics Corporation shall not be liable for any other damages, whether direct or consequential. Specifically, but without limitation, Diamond Plastics Corporation shall not be liable for any crop damage or any other incidental or consequential damages resulting from any breach of warranty, express or implied, or from any defects in its products.

No statement, remark, agreement, representation, promise or understanding, oral or written, made by Diamond Plastics Corporation, or any agent, representative or employee thereof, which is not contained herein, will be recognized by, or be enforceable or binding upon Diamond Plastics Corporation.

There are no understandings or undertakings of any kind with respect to the products or any part thereof which are not expressly set forth and contained herein, and all sales are made without any representation or warranty by Diamond Plastics Corporation that the goods are suitable for any particular purpose. In the event any provision of this LIMITED WARRANTY AND LIMITATION OF LIABILITY is held to be illegal or unenforceable by any court of competent jurisdiction, the remaining provisions shall remain in full force and effect.

STATUTE OF LIMITATION: Any action for breach of this LIMITED WARRANTY AND LIMITATION OF LIABILITY must be commenced within one (1) year after the cause of action has accrued.

THERE ARE NO EXPRESS OR IMPLIED WARRANTIES BY DIAMOND PLASTICS CORPORATION, OTHER THAN THOSE SPECIFICALLY SET OUT ABOVE. THERE ARE NO IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE IN CONNECTION WITH ANY SALE EXCEPT AS SET FORTH ABOVE.
